How to use this catalog

How does your organization measure progress and results? It's an important question and a difficult one.

The metrics you share are your choice and they should reflect what you already collect and use. To help you think about them, we created the Common Results Catalog. This catalog contains all of the metrics currently in our database—by subject area—developed in consultation with teams of experts.

Browse the catalog to see what metrics make sense for your organization. If you don't find a metric that fits, you can add a custom metric.

Here's how to get started

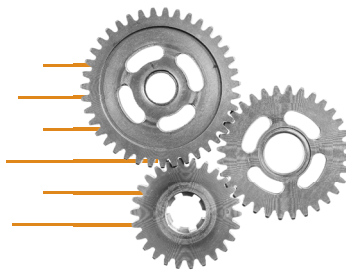

1. Scan this list to help you reflect on your metrics

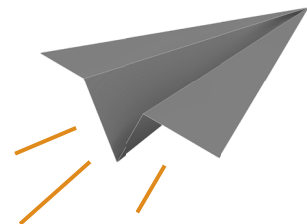

2. Pick the metrics that best fit your organization or create your own custom metrics

3. Enter your metrics into the Platinum section of your Candid nonprofit profile

4. Millions of people using Candid will view your progress and results
